### Protect Yourself!

- Americans bought nearly 8 million paper shredders in 2002. What about the data on optical disks?
- A single CD holds the equivalent of approximately 80 four-drawer filing cabinets filled with documents.
- One side of a single DVD disc holds about 560 four-drawer filing cabinets filled with documents, or the capacity of 7 CDs.
- Identity & data theft are one of the fastest growing crimes, with an estimated 700,000 consumers victimized in 2001.
