Norazza® acquires d_Skin®

d_skin® the ultra-thin snap-on skin that protects discs

West Seneca, NY, September 2007 – Norazza®, Inc, a manufacturer of high-quality CD/DVD and digital products, today announced it has acquired d_skin® . d_skin® will join the Norazza® line of brand name products, and will be sold through Norazza’s distributors and retailers.

“We are extremely excited to have d_skin® join our family of brand names.” said Tom Sperazza, President of Norazza, Inc. “The d_skin® products are a must-have for anyone with CDs, DVDs, games, or business data that need to be protected. As game discs become more expensive, families can’t afford to replace them every time their scratched. d_skin is an affordable way for families to protect their DVD and video game library.”

d_skin® by Norazza® is a patented ultra-thin snap-on skin that protects CDs, DVDs, Data, and video game discs. The ultra-thin skin forms a protective barrier on the readable side of your discs preventing damaging scratches. Snap it on, leave it on, Even while it plays.

With the addition of d-skin® , Norazza will begin an aggressive marketing campaign that will impact millions of consumers. Norazza® plans on introducing a new MAP pricing program, and has plans for new product announcements for early 2008.

To learn more about d_skin® by Norazza®, please visit www.Norazza.com or call (716)677-4662 ext 310. d_skin® and other Norazza® products are distributed by Ingram Micro, DBL Distributing, United Stationers and Omega Satter.
